mani-pedi STEPS

ZENTS STEP-BY-STEP GUIDE

1. SOAK

Use Truffle & Wash together. Detoxifying Epsom helps soothe tired, sore muscles. Organic shea butter wash with fruit enzymes soften the skin, calluses and cuticles to make callus work and pushing back cuticles easy.

2. CUTICLE CARE

Get small pearl size of Concreta, and melt it in the palm of your hand. Apply to cuticles and push back cuticles. (Note: no cuticle eliminator needed as the organic fruit enzymes in the Wash/soak soften the cuticles and the Concreta hydrates and plumps making it easy to push back).

3. EXFOLIATE

Completely dry bottom of feet, then apply Body Polish. Experiment with coarse and mild exfoliation on each leg.

- Coarse exfoliation - apply a thick, quick application of Massage Oil on the leg. Then apply Polish over the Oil. Oil allows the polish to move around and act as a coarse scrub. Experiment with pressure.
- Mild Exfoliation - place a dime size of Wash in your hands and add a little water. Create rich lather on the leg. Apply Polish over the lather.

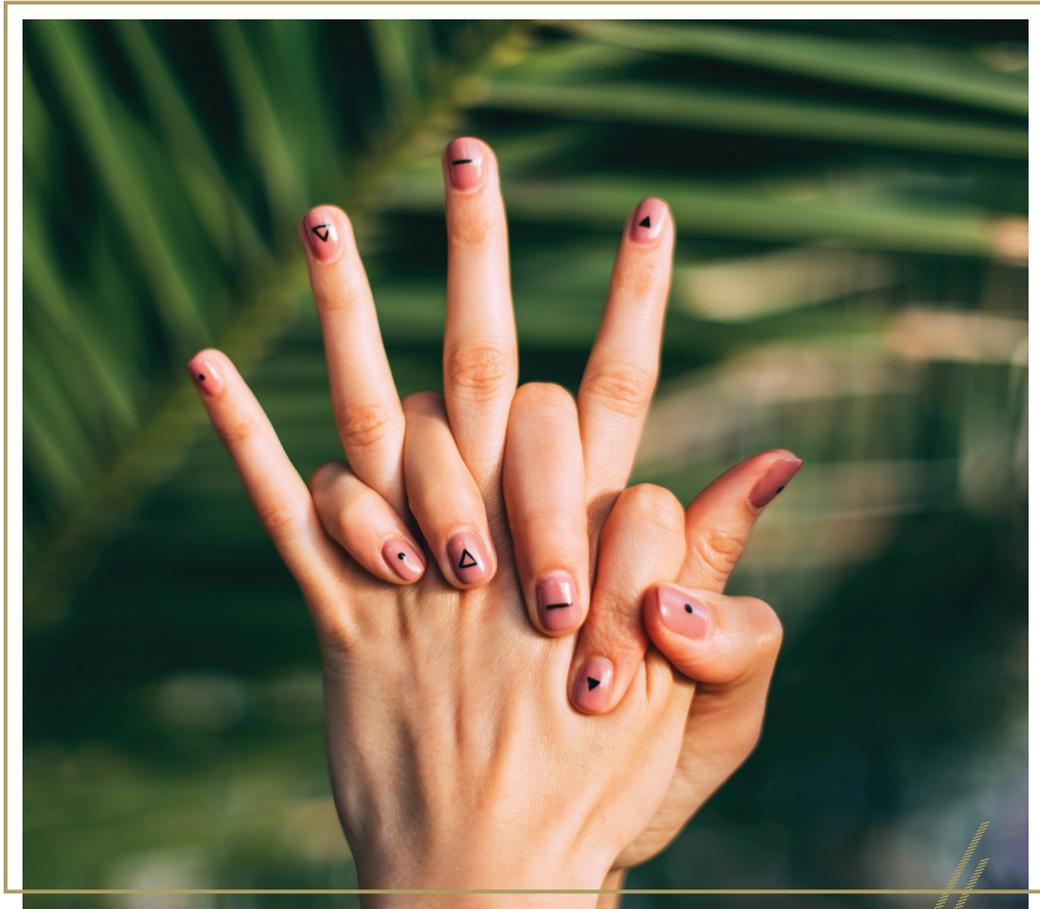

4. HYDRATION/MASSAGE

Lotion/Oil Combo: Mix large pearl sized of Lotion & Oil together, and do a quick application on legs and feet.

5. MASK

Concreta: Get a pearl size of concreta, melt it in your hands, and apply as a foot mask. Wrap feet with hot towel. While feet are wrapped, massage legs. This is a anti aging natural paraffin alternative.
